

### Concepts Homework for Monday, October 1<sup>st</sup>

HW: Using the directions below, try logging on to Cognitive Tutor from your home computer

1. Go to *Ms. Shulkin's webpage* (under WMS Faculty and Staff page)
  - a. On the left hand side toolbar, click on *Helpful Links*
  - b. Click on *Cognitive Tutor*
2. Once Cognitive Tutor opens in a new window, you will need to unblock pop windows before logging in.
  - a. In the top header, go to Safari and unclick "Block Pop Up Windows"
  - b. If you are using a computer that is not a MAC, you may need to ask your parents how to unblock pop up windows
3. Once you have unblocked pop ups, type in your username and password
  - i. Username: First name SPACE Last name (Capital letters for the first letter of your first and last name, Ex: **M**ark **S**mith)
  - ii. Password: first name (should be in all lower case OR first letter is capitalized)
  - iii. If it asks you to reset your password, type in your first name
4. Once logged in, Cognitive Tutor should download and open up
  - a. If the program downloads but does not open, you may need to double click it to open

\*\*\* If you are unable to open Cognitive Tutor from your home computer, take a camera shot of the screen so that Mr. Mazzeo and Ms. Shulkin can help figure out why you can't log on from home \*\*\*
